Facilitator:

Julie Weismann, CEO, Womenspace

For many survivors their prison is invisible through coercion, intimidation, gaslighting, financial control, isolation, stalking and the threat of violence. Abusers come in every size, class, race, gender, and religion.

They are our brothers, fathers, girlfriends, boyfriends, significant others, neighbors, coworkers and friends. They share common traits, like feeling entitled to control and hold power over their intimate partner, someone they claim to love.

This year's theme for Domestic Violence Awareness Month is: Be the Hero our Community Needs. And we invite you to join us and learn ways that we can create safety and stop the abuse and fear in our community.

Our panelists will not only help us understand what abuses looks like, they will suggest ways in which we can take a stand against domestic violence. Sometimes the simplest actions like paying attention, asking questions and believing them is the most helpful.
